### Negara Yang Terancam Hilang: Tuvalu

---

[\(http://yangkiimadesuara.com/2011/02/17/negara-yang-terancam-hilang-tuvalu/\)](http://yangkiimadesuara.com/2011/02/17/negara-yang-terancam-hilang-tuvalu/)

Tulisan ini adalah bagian dari serial tulisan tentang negara yang terancam hilang akibat pemanasan global yang mengakibatkan naiknya permukaan air laut. Negara yang direview di keseluruhan tulisan ini adalah negara yang tergabung dalam AOSIS (**Alliance of Small Island States**) yang merupakan salah satu organisasi antar pemerintah (Intergovernmental Association) dari dataran rendah pesisir (*low-lying coastal*) dan negara kepulauan kecil (*small island countries*). AOSIS didirikan pada tahun 1990, tujuan utama dari aliansi ini adalah untuk mengkonsolidasikan suara Small Island Developing States (SIDS) untuk mengatasi pemanasan global. AOSIS memiliki 42 anggota dan observer dari seluruh dunia, dimana 37 merupakan anggota PBB. Aliansi tersebut merupakan 28% dari negara-negara berkembang dan 20% dari total keanggotaan's PBB.

## Tuvalu

Saya pertama kali mendengar nama Tuvalu ketika mengikuti acara Konferensi Perubahan Iklim COP15 di Copenhagen, Denmark pada bulan Desember 2009. Pada konferensi tersebut, delegasi Tuvalu adalah salah satu delegasi yang paling bersuara keras terutama di tanggal 10 Desember 2009 ketika delegasi Tuvalu menuntut kenaikan suhu global harus dibatasi pada 1.5 derajat bukannya 2 derajat seperti yang diusulkan.

*"Tuvalu is one of the most vulnerable countries in the world to climate change, and our future rests on the outcome of this meeting."* –**Ian Fry**, Tuvalu's negotiator in COP15 Climate Conference.

[\(https://www.cia.gov/library/publications/the-world-factbook/graphics/locator/au/tv\\_large\\_locator.gif\)](https://www.cia.gov/library/publications/the-world-factbook/graphics/locator/au/tv_large_locator.gif)

## Map Negara Tuvalu (CIA)

Tuvalu juga terkenal dengan nama **Ellice Islands**, Tuvalu sendiri berarti “*delapan pulau yang berdiri bersama*” dalam Bahasa Tuvalu karena negara ini terdiri dari 8 pulau yang terletak di Samudra Pasifik. Tuvalu dikelilingi oleh negara Kiribati, Nauru, Samoa dan Fiji dan berdasarkan perkiraan jumlah penduduk Juli 2010, Tuvalu dihuni sebanyak 10,472 orang (CIA World Fact Book) dan menjadikan Tuvalu sebagai negara dengan populasi penduduk terkecil ketiga di dunia setelah Vatican City dan Nauru. Tuvalu sendiri hanya memiliki luas 26 km persegi atau hanya

3% dari luas Jakarta dan jika dihitung dari luas daratannya saja, luas Tuvalu kurang dari 1% luas Jakarta. Kita bisa membayangkan bagaimana “menariknya” tinggal di Tuvalu.

Saya sendiri belum pernah menginjakkan kaki di Tuvalu tetapi pernah bertemu dengan **Gilliane Le Gallic** yang merupakan pendiri dari organisasi **Alofa Tuvalu (<http://alofatuvalu.tv>)**. Gilliane mulai mendirikan organisasi ini setelah beberapa saat tinggal di Tuvalu dan merasakan kecintaanya akan negara kecil ini. Giliane bercerita bahwa Tuvalu adalah sebuah negara yang indah alamnya dan disamping itu, Tuvalu juga negara yang terancam akan dampak dari perubahan iklim. Adalah hal yang biasa ketika badai menerpa negara ini, air yang keluar dari tanah seperti yang dialami oleh daerah Sidoarjo dimana di Sidoarjo lumpur yang keluar dari tanah. Yang paling menarik mendengar tentang Tuvalu adalah ketika kita tidur dimanapun di daerah Tuvalu, maka deburan ombak akan menjadi musik penghibur di malam hari.

[\(\[http://farm6.static.flickr.com/5171/5452867103\\\_398f5299df\\\_b\\\_d.jpg\]\(http://farm6.static.flickr.com/5171/5452867103\_398f5299df\_b\_d.jpg\)\)](http://farm6.static.flickr.com/5171/5452867103_398f5299df_b_d.jpg)

Yangki Imade Suara and Gilliane Le Gallic ([Flickr Photo Stream](http://www.flickr.com/photos/yangkiimade/5452867103/sizes/l/in/photostream/)  
[\(http://www.flickr.com/photos/yangkiimade/5452867103/sizes/l/in/photostream/\)\)](http://www.flickr.com/photos/yangkiimade/5452867103/sizes/l/in/photostream/)

Ancaman terbesar bukanlah bencana alam yang menerpa Tuvalu, tetapi ancaman terbesar yang sedang dihadapi oleh Tuvalu adalah tenggelamnya negara ini. Titik tertinggi di Tuvalu hanya sekitar 4.5 meter (15 kaki), ini berarti jika air laut naik 40 cm setiap tahunnya, maka dalam 100 tahun lagi Tuvalu akan hilang dari muka bumi atau jika air laut naik 80 cm setiap tahunnya, maka dalam 50 tahun lagi Tuvalu hanya akan tinggal sebuah nama.

*“We live in constant fear of the adverse impacts of climate change. For a coral atoll nation, sea level rise and more severe weather events loom as a growing threat to our entire population. The threat is real and serious, and is of no difference to a slow and insidious form of terrorism against us.” –Saufatu*

**Sopoanga**, Prime Minister of Tuvalu, at the 58th Session of the United Nations General Assembly New York, 24th September 2003.

Jika dalam jangka waktu 50 hingga 100 tahun ke depan kita terus membiarkan terjadinya perubahan iklim yang mengakibatkan naiknya permukaan air laut, maka Tuvalu bukan hanya satu-satunya negara yang terancam akan hilang dari muka bumi. Indonesia sendiri sebagai negara kepulauan yang memiliki lebih dari 17,000 pulau pasti juga akan terkena dampaknya. Jika Tuvalu hilang ini berarti air laut naik sebesar 4 meter, kita dapat menghitung berapa banyak kehidupan di pinggir pantai/laut yang akan hilang di kota-kota pinggir pantai Indonesia karena kebanyakan kota besar Indonesia berada di pinggir pantai, sebut saja Jakarta, Surabaya, Semarang, Padang, Makassar.

## The Impact of A Global Temperature Rise of 4 Degrees Celsius

**Yangki Imade Suara\***

This maps will show us the impact of global temperature if rise around 4 degrees Celsius or around 7 degrees Fahrenheit.

Credit: <http://www.actoncopenhagen.decc.gov.uk/>  
[\(http://www.actoncopenhagen.decc.gov.uk/\)](http://www.actoncopenhagen.decc.gov.uk/)

The maps will show us about the impact of rising in a global temperature in 9 sector around the world;

1. Forest Fire
2. Crops
3. Water Availability
4. Sea Level Rise
5. Marine
6. Drought
7. Permafrost
8. Tropical Cyclones
9. Extreme Temp

Here you can download the document about the impact of rising in global temperature about 4 degrees Celsius. Document are available in [[english](http://centralcontent.fco.gov.uk/central-) (<http://centralcontent.fco.gov.uk/central->)

# Save The Earth : Free Download

(<http://youthclimate.org/wp-content/themes/arras-theme/images/logos/youthclimate.gif>)

Email from Leon (friend from COP15)

Hi everyone, for all of you who were at the vigil and saw Ceesay leading the singing, or saw Josh up on stage the day after... These two young geniuses recorded this awesome song the day after COP15 finished. I've been asked to upload the final mix, so everybody download it and stick it on your ipods!

Download link is here <<http://youthclimate.org/wp-content/uploads/2010/Save%20the%20Earth.mp3> (<http://youthclimate.org/wp-content/uploads/2010/Save%20the%20Earth.mp3>)>

Cheers

Leon

## Climate Justice on Vigil for Survival

(<http://www.flickr.com/photos/yangkiimade/4193044067/>)

### Climate Justice on Vigil for Survival

(<http://www.flickr.com/photos/yangkiimade/4193044067/>)

Originally uploaded by Yangki Suara (<http://www.flickr.com/people/yangkiimade/>)

A coalition of civil society and NGO's holds a vigil for Survival in downtown Copenhagen. After being locked out of the Bella center and shut out of the process, civil society used the moment to reaffirm their dedication to solving the climate crisis.

Hundreds of people attend this event and holding candle which is represent 10.000 people who want a REAL DEAL from COP15 event.

## The Journey Started: My Trip to COP15

# Climate Conference

COP15  
COPENHAGEN  
UN CLIMATE CHANGE CONFERENCE 2009

(<http://yangkiimadesuara.com/2009/12/04/the-journey-started-my-trip-to-cop15-climate-conference/>)

## Welcome to (HOPE)NHAGEN

I was so lucky for having time to participate in one of the big conference around the world in the end of 2009. The 2009 United Nations Climate Change Conference, commonly known as the Copenhagen Summit, was held at the Bella Center in Copenhagen, Denmark, between 7 December and 18 December. The conference included the 15th Conference of the Parties (COP 15) to the United Nations Framework Convention on Climate Change and the 5th Meeting of the Parties (MOP 5) to the Kyoto Protocol. According to the Bali Road Map (COP13) in 2007, a framework for climate change mitigation beyond 2012 was to be agreed there.

For my self, this is my first time participate in UNFCCC event and based on information from European Youth Forum (my sponsor), there's one more student that got selected to participate in this event. Her name is Dian and she's studying in UK.

I arrived at Kastrup Airport at 9am and Iben (my friend and he's studying in Lund University, Sweden and lived with his wife Kak Devina) asked me to buy train ticket and he'll waiting for me in Malmö, a city in the southern part of Sweden and very closed to Copenhagen, approx. 1 hour by train.

([http://yangkiimade.files.wordpress.com/2011/04/100\\_7016.jpg](http://yangkiimade.files.wordpress.com/2011/04/100_7016.jpg))

Banner for COP15 Climate Change Conference

At 4 pm, we decided to go to coffee bar with Billy (Iben friend) from Lund and he's coming to Malmö. Because it's in winter time, we had short day and 4 pm in Malmö just like the same with 7 pm in Bandung. Everything is so dark and so cold (1 degree Celsius).

([http://yangkiimade.files.wordpress.com/2009/12/100\\_7038.jpg](http://yangkiimade.files.wordpress.com/2009/12/100_7038.jpg))

Wheel of Malmö, Sweden

I still had my jet lag and after having a cup of coffee and a very nice conversation with Billy about Greek news and some tradition in Greek, we decided to get home and I have to prepare for tomorrow event which is called Conference of Youth 5 (COY5), an annual conference held by International Youth Climate Movement (IYCM) before Conference of the Parties (COP) began.
